British Asian Trust's Theory of Change

Unlocking the potential of communities in South Asia

Barriers to Change

Fragmented collaboration | Insufficient and ineffective allocation of funding | Ineffective policy implementation | Limited opportunities within communities

The British Asian Trust was founded in 2007 by His Majesty King Charles III together with leading British Asian business leaders.

We are a unique organisation, led and driven by the South Asian diaspora and by a powerful belief that traditional approaches to philanthropy and development will not, alone, solve the challenges of the region.

Our Expertise

We can tackle these challenges because we:

- Spearhead local and diaspora expertise
- Focus on systems change
- Pioneer innovative funding
- Leverage the power of evidence
- Tackle critical issues including:

Child Protection

Education

Livelihoods

Mental Health

Conservation

Approach

Leverage South Asian diaspora

Engage private sector

Test new funding approaches

Collaborate with governments

Build and share evidence

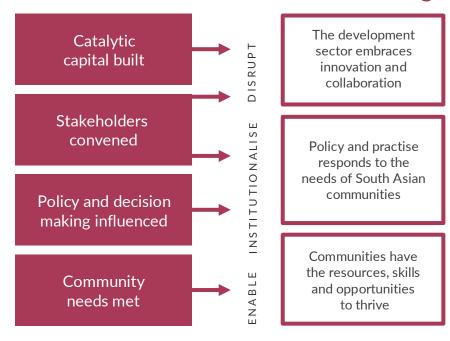

Grow localised partnerships

British Asian

Provide sustainable programmes

Which builds a Foundation for Change

Impact

- Children are safe from exploitation and abuse
- Children benefit from quality education systems
- Communities enjoy sustainable livelihoods
- Communities have improved mental health and wellbeing outcomes
- Biodiversity and species are recovered
